CARE FOR ALL LIVING THINGS
Please show your concern for all living things by not feeding or chasing animals, by not picking or damaging plants, and by respecting safety barriers. For the well-being of animals and guests, wheeled vehicles (including bicycles, scooters, skateboards, and skates) but not including standard wheelchairs) are not allowed in the zoo. Due to fire codes, strollers are not allowed in some buildings. Locks are available (with deposit) at stroller rental locations. Please secure your belongings or take them with you. For the health and safety of our guests and animals, smoking is restricted to three designated areas located throughout the zoo. (Please see the map.)

PHOTO/VIDEO IMAGE USE POLICY
By entering the zoo, you acknowledge that you may be and you agree to be filmed, videotaped, and/or photographed by a Chicago Zoological Society (the "Society") representative and give the Society permission to use your photograph and likeness in all media, now known or hereafter developed, worldwide indefinitely. You acknowledge that the Society shall own all rights, title, and interest in all photographs and materials created incorporating the photograph or likeness. Commercial use of photographs, video, and film you take here is prohibited without written consent from the Society.
