Marvelous Marsupials

Being an animal care specialist takes careful preparation. Here are some things you need to know so that you can be prepared to work side by side with your Marvelous Marsupials zoo crew:

Communication between you and the host staff is crucial. You must be able to read, speak, and understand English without the use of an interpreter. If you are unable to participate in the program without an interpreter, please call (708) 688-8338.

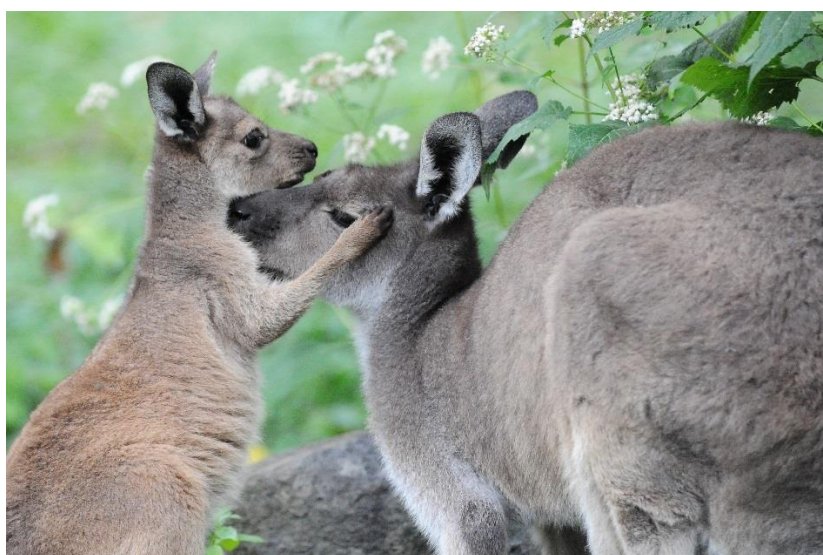

You must be attentive. Although the animals you will encounter are comfortable working with their human caregivers, they are still wild animals and their behavior is unpredictable. It is important that you pay close attention to the guidance and instructions of the care staff you are spending the morning with. Never enter any animal area without direction from the staff. Always wait for instructions and authorization from the animal care specialist before approaching any of the animals while participating in observation, care and enrichment, and feeding sessions.

All participants are required to complete a signed liability waiver (page 4).
