

# Get Ready for a Backstage Adventure!

Chicago Zoological Society | Brookfield Zoo

## Lions, Tigers, and Bears, Oh My!

Being an animal care specialist takes careful preparation. Here are some things you need to know so that you can be prepared to work side by side with your Fragile Kingdom, Big Cats zoo crew:

Communication between you and the host care staff is crucial. You must be able to read, speak, and understand English without the use of an interpreter. If you are unable to participate in the program without an interpreter, please call (708) 688-8338.

You must be attentive. Although the big cats and sloth bears are comfortable working with their human caregivers, they are still wild animals and their behavior is unpredictable. It is important that you pay close attention to the guidance and instructions of the animal care specialist you are spending the morning with. Never enter any animal area without direction from the care staff. Always wait for instructions and authorization from the staff and remain behind the yellow safety line in front of the animal holdings while participating in observation, care and enrichment, and feeding sessions.

All participants are required to complete a signed liability waiver (page 4).

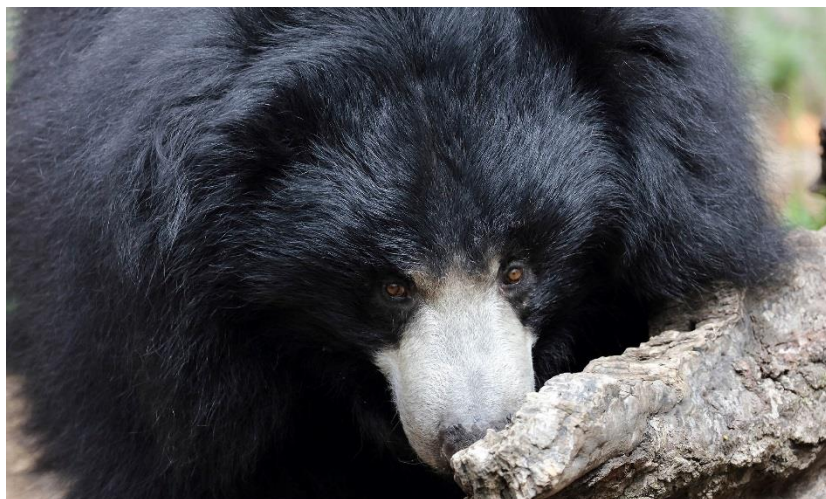

Read on for Frequently Asked Questions, a map, and your waiver.
